NEW COLLECTION DNA

PREMIUM

This season, we continue to stand by our commitment to only ever use 100% organic cotton and recycled polyester because we believe that anything less isn't premium. We've given precedent to all the extra things that come together to create something beautiful. Premium is reflected in hood linings, special trims, exceptional metal-ware, the attention given to proportions, rich colour selection, the exact fabric weight for each product and the refusal to compromise on our standards in production. Premium is also present in the outstanding quality of service that comes with each of these products.

‘Simplicity is not just a mindset but an innate sense of comfort that leaves the wearer feeling beautiful in their skin.’

SIMPLICITY

This season, we’ve created clean lines and reflected high attention to detail in a collection that is forever relevant. Each piece is a go-to with an everlasting promise. It is an everlasting promise of comfort and style with items that are easy to wear and effortless to combine.

SOFTNESS

Every style in our collection provides a strong sense of comfort and freedom of movement and makes the wearer feel instantly good. The moment of joy when a garment first touches the skin is cultivated through a considered process. First up, all our materials are organic – beautiful, and cosy. Every product from the collection is finished with softness at the core, which means selecting the right weight of fabric and deciding on the type of brushing that offers indulgence. Then there is the cut which is designed to work with each wearer’s mood whether it’s fitted, oversized or somewhere in between – fit will never mean forgoing on comfort.

Finally, we ensure that all seams are beautifully finished because we know that comfort lies in even the tiniest details.

SUSTAINABILITY

Our mission is to adhere to a responsible lifestyle, which is why we integrate sustainability into everything we do. As one of the world’s top organic cotton suppliers, we are certified to the highest levels and ethical in our sourcing and production.

This collection will feature our commitment to 100% organic cotton but also a new recycled polyester blend. Recycled polyester will help offer more diversity in our collection, providing another unique opportunity to those who care about the impact of their actions.

MODERNITY

Modernity is more than a collection; it’s a way of thinking that ensures everything we do is relevant. We’re unveiling new styles, cuts and colours – all crafted to be totally modern and exploring new recycled fabrics that strengthen our efforts to become completely sustainable. We’ve also launched a brand-new web platform with cutting-edge advancements that work to improve your digital experience.

Whether it’s the in-house design team’s quick response to the latest high-street and catwalk trends or our efforts to embrace new movements in sustainability and digital technology, Stanley/Stella puts modernity first to ensure your loyalty.

We are proud to reveal our new collection in this brand new 2019 Lookbook – we look forward to a successful year together!

NEW COLLECTION

Benjamin is 1,88 m - Size L
Creator - Cotton Pink

Martina is 1,70 m - Size XS
Cruiser - Scale Green

Philippine is 1,74 m - Size XS
Changer - Sky Blue

Eya is 1,78 m - Size XS
Creator - Sunset Orange

9 NEW COLOURS

This season, we've dared ourselves to incorporate flashier colours to surprise and support our customer in both collection and communication. We're talking about a colour palette that both clashes and compliments; pinks, blues, oranges, and greens come together for her, for him, for everyone. No tone is selected in isolation but works towards part of a bigger story, where the wearer can combine and express their personality. Against this pop of colour, there are desert neutrals and the reintroduction of the favourite denim washes.

We've found ourselves inspired by nature's weirdest wonders including chameleons and reptiles, who have the incredible ability to adapt their colour to their environment. We've looked to bold colours that stand out to make a statement in different contexts, whether it's in the city or the suburbs.

'Trend aware but commercial, each colour is carefully selected for its potential to offer a creative canvas.'

WE ARE

WE ARE SUSTAINABLE

At Stanley/Stella, sustainability is deeply rooted in our DNA, and we believe that textiles should be produced with respect for people and the planet. Designed in Belgium, most of Stanley/Stella's collection is proudly made in Bangladesh and meets Fair Wear Foundation's and International Labour Organisation (ILO) conditions of labour. *

OUR SOCIAL COMMITMENT

'Produced with respect for people'.

We ensure that workers are properly paid, that there is no gender discrimination, and that building and fire safety standards are strictly adhered to.

In Dhaka (Bangladesh), our 19-person team monitors our 5 partner factories every single day. Each of these factories is also audited by the Fair Wear Foundation, of which Stanley/Stella is a recognised member.

Fair Wear Foundation is a non-profit organisation that works with brands, factories, trade unions, NGOs and, sometimes, governments to verify and improve workplace conditions for garment workers. They are active in 11 production countries in Asia, Europe and Africa. Fair Wear Foundation (FWF) membership is the beginning of a journey in which brands make step-by-step improvements that lead to real and sustainable solutions.

STANLEY/STELLA IS A MEMBER OF FAIR WEAR FOUNDATION WWW.FAIRWEAR.ORG

*Read our Social report on www.stanleystella.com

WE ARE ORGANIC

'Produced with respect for the planet'.

We are demanding – right through to the cotton we source from to the factories we trust. Our entire production chain complies with strict, forward thinking ecological and ethical standards.

Our collections are designed using organic cotton and recycled polyester (even our heather colours are 100% organic ring-spun cotton). We use a combination of these materials to achieve the super soft and full hand-feel needed for ultimate printability and enjoyment.

Organic means

Organic cotton is a natural, GMO-free fibre that uses less water than standard cotton. Its production does not involve the use of chemicals (no fertilisers or pesticides) and insists on the rotation of crops to keep soil healthier, more fertile and with maintained humidity. This means less risk to the health of farmers and villagers.

Other materials

At Stanley/Stella, we use recycled polyester to make our jackets – in fact, each windbreaker is recycled from up to 8 PET plastic bottles. We also blend recycled polyester in some sweatshirts, mixing it with organic cotton (up to 15%). We keep the softness against your skin, by locking the polyester into two layers of organic cotton.

Another used material is Modal®, which is biodegradable and made from eucalyptus or beech tree pulp. Eucalyptus is known for being a fast-growing wood that does not require irrigation, this makes it an extremely sustainable source.

Waste reduction

When it comes to garment manufacturing, the cutting process naturally produces scrap material on which we work hard to ensures goes back into our products. At Stanley/Stella, we have a partner who collects and recycles these scraps into new cotton thread that we use in the manufacturing of our tote bags.

Water

We work with factories that implement processes which treat industrial waste water for its reuse or safe disposal to the environment. Our mission is to safeguard the environment against pollution and contribute to sustainable development.

WE ARE CERTIFIED

We are one of the biggest organic textile buyers in the world and are Global Organic Textile Standard (GOTS), OCS Blended and OCS 100 certified. In fact, sustainable, organic and social compliance are key commitments of Stanley/Stella. Our strict code of conduct in these areas provides decorators with environmental reassurances that your customers demand.

100% of our garments are certified

GOTS (Global Organic Textile Standard) is recognized as the world's leading processing standard for textile made from organic fibres. As a standard, it covers the entire chain of production from farm to factory: from harvesting of the cotton, weaving of fibres, assembly of items, to the final product. It certifies that Stanley/Stella cotton is GMO-free, that it is grown without the use of chemicals and is processed and dyed without using any banned toxic substances. GOTS also ensures compliance with the labour standards of the International Labour Organisation throughout the production chain.

The Global Recycled Standard (GRS) label certifies that the materials used are recycled: in the case of polyester we reuse plastic bottles, and for cotton, we collect cutting wastage. GRS also guarantees compliance with social and environmental criteria such as the treatment of waste water, the absence of certain toxic additives and respect for working conditions in our partner factories.

OEKO-TEX Standard 100 certifies the absence of harmful chemical substances in all Stanley/Stella products thanks to the "Confidence in textile" label. As of 2019, factories will also have to conduct GMO testing on yarn or fabric.

CREATED WITH YOU IN MIND

PRINTABILITY

Stanley/Stella garments are suitable for all forms of decoration; transfers, screen printing, DTG, embroidery, flocking. The super smooth surface of our garments means enhanced definition and less pre-treatment being required for Direct to Garment (DTG) printing. The very tight knit of our garments means that embroidery work stays flat, even on lighter weights.

In addition to this, the printing surface of Stanley/Stella sweatshirts is 100% cotton and the 15% of recycled polyester that features in some products is always on the inside of the knitted fabric.

STOCK

We hold a huge depth of stock in main colours and styles, all of which is visible via our online professional account holder area, including real-time stock levels and inbound restocking dates.

Current stock levels are displayed alongside our garments, giving you the peace of mind that your orders can be processed immediately.

PACKAGING OPTIMIZATION

To simplify the ordering process, we have harmonized the quantities of clothes per box :

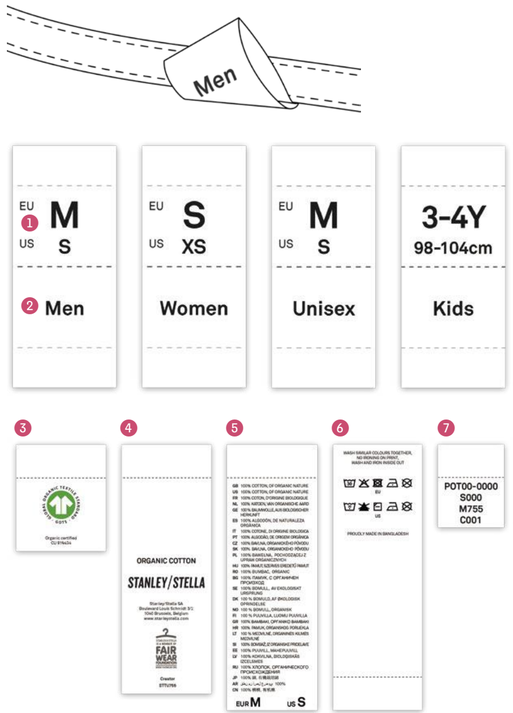
4 types of boxes	
Jackets / Sherpas	Box of 10 units
Sweatshirts / Pants / Dresses	Box of 20 units
Polos / Shirts / Long Sleeves / Bags	Box of 50 units
T-shirts / Tank tops / Accessories	Box of 100 units

RELABELLING

Stanley/Stella garments allow for easy relabeling thanks to our perfect tear-off labels and no neck label. There are no other identifying features on our garments, other than our trademark quality and style.

For **size labels**, we offer you a better layout for less confusion.
1. EU sizing bigger than US sizing.
2. Gender mentioned on the back side.

The tear-off **care labels** tell you:
3. Certification
4. Stanley/Stella's main label with added HQ address
5. Composition translated into 28 languages
6. Wash care instructions
7. POT label



STYLE COMBOS

This season, the style combinations across tees, sweats, joggers, and even jackets are bountiful and enable a play with colour and products to create unique looks. The promise is inclusiveness – colour and styles that can be shared by men, women and even children. The goal is that everyone can play with products to create unique outfits which they can style just the way they want.

WE ARE COLOUR SPECIALISTS

Presenting our rich colour selection. Around 100 trendy colours and heathers to express your creativity. Discover our new Spring/Summer palette : Pink Punch, Sunset Orange, Black Heather Orange, Cotton Pink, Lavender Dawn, Desert Dust, Scale Green, Chameleon Green and Varsity Green. Against this pop of brightness, there are desert neutrals and the reintroduction of the favourite denim washes. And take a closer look at our Fall/Winter colours : Coral Wave, Crystal Stone, Purple Led, Lilac Peak, Midnight Blue, Off White.

No tone is selected in isolation but works towards part of a bigger story, where the wearers can combine and express their personality. Enjoy!
